MD80 JT8D Exhaust Plug, Folding Type

Section 2: Engine Covers

Off-Link Engine Covers protect commercial aircraft engines while in storage. They protect the engine from the elements, prevent surface contamination from oil leaks, and help stop "parts robbing". There are three types: Complete, partial and component covers.

Complete covers enclose the entire engine. There are openings for mount points and engine access. Closures are heavy duty zippers, secured or tightened with straps and industrial buckles. High visibility reflective strips are sewn around the perimeter to enhance safety, and to prevent collisions from moving vehicles. Directional indicators, company insignia, and a forms pouch are sewn onto each cover. Where needed strap loops are placed at hoist points for easy and fast installation. Locking mechanisms can be installed on the cover to help prevent unauthorized access.

Partial covers are designed as "Rain Caps", which cover the top and sides but do not prevent oil contamination from the engine to the surface below. Their construction details are similar to the complete cover designs, but they can be easier to install.

Component Covers, such as intake or exhaust covers, are designed according to customers' specifications. A wide variety of materials and attachment details are available, as well as custom imprinting.

FABRIC & THREAD: For strength, durability and ease of use we make these covers of the heaviest nylon ballistic cloth. It is sewn in multiple courses with *Tenara* thread, and reinforced with heavy vinyl cloth at high-wear points.

Tri-Fold Ring Engine Covers are designed to install easily yet be completely storable. A spring steel hoop is sewn into the hem of each cover, allowing them to be installed without climbing onto the wing or using a stepladder in many cases. To store the covers the spring steel hoop folds like a band-saw blade into three nesting rings. Each cover folds into a compact circular bundle which is stored in the included duffel bag, yet they unfold quickly for use. The Tri-Fold Ring cover is made of medium weight Solution-Dyed Polyester which is available in a variety of colors to match the paint trim. Each cover set comes complete with installation and folding instructions. The aircraft's registration number can be silkscreened onto the cover for an extra charge.

ALL-YEAR USE MATERIAL - Made with Solution dyed Polyester fabric, the all-year use material is the best option for sun protection and cover longevity. This heavier more durable material is intended for all weather conditions, such as rain and snow or lots of sun.

Description	Part Number	Price
INTAKE/EXHAUST COVERS SET (set of 4)	B717-200	\$7235.00
QEC OFF-LINK ENGINE LONG-TERM STORAGE "Rain Cap" Style COVER, (with nose cone and thrust reversers), PW JT8D	B717-700	\$4165.00
QEC OFF-LINK ENGINE SHIPPER/TRANSPORT, LONG-TERM STORAGE COVER "BAG" or "ENVELOPE" for PW JT8D, (no nose cone, no thrust reversers), Fully enclosed under belly	B717-705	\$4840.00
QEC OFF-LINK ENGINE SHOWER CAP COVER SET, for PW JT8D, (no nose cone, no thrust reversers) (set of 2)	B717-710	\$475.00

Section 3: Plugs & Protection

Boeing 717 Heat Resistant Pitot Tube Covers, are made of Naugahyde vinyl, and lined with a non-burning material. They are designed to cover the entire pitot assembly, slipping over the tube and tightening around the base with a Velcro strap detail. A "Remove Before Flight" streamer is attached to the cover. **Heat Resistant Pitot Covers** are an upgrade to our standard design, and help prevent the pitot cover from melting onto the tube if the pitot heat is accidentally turned on while installed. If you want the set tethered together, please let us know.

Boeing 717 Pitot Tube Covers, NOT HEAT RESISTANT TYPE, are made of Naugahyde vinyl, and are designed to cover the entire pitot assembly. Slipping over the tube, the cover tightens around the base with a Velcro strap detail. A "Remove Before Flight" streamer is attached to the cover. **Heat Resistant Pitot Covers** are an upgrade to this design, and help prevent the pitot cover from melting onto the tube if the pitot heat is accidentally turned on while installed. If you want the set tethered together, please let us know.

The **Engine Exhaust Plugs** are custom fit for your Boeing 717 exhaust openings, made with heavy-duty vinyl material, and stuffed with a single block of sculpted urethane foam. Each plug has a zipper that allows the foam to be removed and dried if necessary. Exhaust plugs have 'remove before flight' streamers sewn onto the face of the plugs. Most plugs are imprinted with the aircraft registration number in black for an extra charge. Exhaust plugs may be inserted soon after flight when the engine is still warm. Engine Inlet Plugs are commonly referred to as Cowl Plugs, Intake Plugs, Cowl Blocks, Engine Blocks, and Engine Bungs.

The **Engine Inlet Plugs** are custom fit for your Boeing 717 intakes, made with heavy-duty vinyl material, and stuffed with a single block of sculpted urethane foam. Each plug has a zipper that allows the foam to be removed and dried if necessary. Engine plugs have 'remove before flight' streamers sewn onto the face of the plugs. Most plugs are imprinted with the aircraft registration number in black for an extra charge. Storage bag NOT included. Engine plugs may be inserted after flight when the engine is still warm. Engine Inlet Plugs are commonly referred to as Cowl Plugs, Intake Plugs, Cowl Blocks, Engine Blocks, and Engine Bungs.

MD80 JT8D Exhaust Plug, Folding Type

MD-80 Exhaust Plug, folding type

Description	Part Number	Price
ENGINE INLET PLUGS, screen mesh center, small JT8-D (set of 2)	B717-110	\$2790.00
ENGINE INLET PLUGS, folding type, small JT8-D (set of 2)	B717-115	\$2310.00
ENGINE EXHAUST PLUGS, folding type, small JT8-D (set of 2)	B717-120	\$1270.00
ENGINE INLET PLUGS, folding type, BR715 (set of 2)	B717-125	\$3975.00
ENGINE INLET PLUGS, screen mesh center, large JT8-D (set of 2)	B717-150	\$4175.00
ENGINE INLET PLUGS, folding type, BR715 Engine (set of 2)	B717-155	\$3460.00
ENGINE EXHAUST PLUGS, folding type, large JT8-D (set of 2)	B717-160	\$1900.00
PITOT & AOA COVERS, heat resistant type (set of 5)	B717-300	\$655.00
WASH PREP: Pitot & AOA COVER set, both sides (set of 5)	B717-800	\$400.00
WASH PREP: Small Vent PLUG aft of fwd door, left side	B717-803	\$165.00
WASH PREP: Small Vent PLUG at wing root, both sides (set of 2)	B717-804	\$315.00
WASH PREP: Exhaust Vent PLUG, left side, aft of Lg. Pressure Gate	B717-805	\$230.00
WASH PREP: Aft Air Inlet PLUG, on tail, center, Dorsal Ram Air Plug	B717-806	\$270.00
WASH PREP: APU Exhaust and PAC A/C Exhaust PLUGS, 1 left, 2 right side, above engines (set of 3)	B717-807	\$680.00
APU Shroud Cooling Air Inlet Plug, small circular inlet above PAC A/C Exhaust opening on aircraft right	B717-816	\$145.00
APU Compartment Cooling Inlet Plug, small circular inlet	B717-817	\$160.00

Section 4: Wing/Tail/Empennage Covers

Description	Part Number	Price
Rudder Limiter Probe Covers, on l.e. of vert stab (set of 2)	B717-818	\$150.00

Section 5: HeatShields & Sun Reflectors

Cockpit Heatshields are interior sunshades for the aircraft's cockpit. The product is a unique composite of closed-cell foam with a silver mylar finish. The semi-rigid design is stiff enough to stand inside the window framing. The set folds up flat and is easily stored

in the included storage sleeve. Some designs may require velcro and suction cups. Our Heatshields for jets are offered white side out because some aircraft manufacturers have issued advisories against reflective window inserts due to potential heat damage. A Heatshield is an excellent short-term remedy for cockpit overheating, but an external fabric cover is more effective for long-term protection.

Description	Part Number	Price
COCKPIT HEATSHIELD SET (set of 9)	B717-900	\$360.00

Section 6: Miscellaneous Products

Description	Part Number	Price
WASH PREP: Static Port STICKER, both sides, 12" dia. (set of 3)	B717-808	\$285.00
WASH PREP: Pressure Gate STICKER, left side, 12" dia. (set of 2)	B717-809	\$195.00
WASH PREP: Lg. Pressure Gate STICKER, aft of wing, left side, 18" dia.	B717-810	\$560.00

Prices subject to change. Other Covers and Design Alterations: Prices on request.

Prices are FOB Morgan Hill, CA. Sales tax on orders shipped to California addresses. Orders take approximately 3 weeks to complete. For domestic orders we normally ship by UPS ground service. Next day shipping and air parcel post is available on request. We can take payment by Visa, Mastercard, American Express, or Discover.

Bruce's Custom Covers offers protective covers and plugs for virtually every type of airplane, jet and helicopter. If you have questions about our products please call any time TOLL FREE: 800/777-6405, or FAX: 408/738-2729.
