manufacturer of the finest custom-made aircraft covers

Tech Sheet: Canadair Regional Jet 200, 700

(canadair-CRJ.pdf)

Canadair RJ Preheater Intake & Plugs (3D Model)

Section 2: Engine Covers

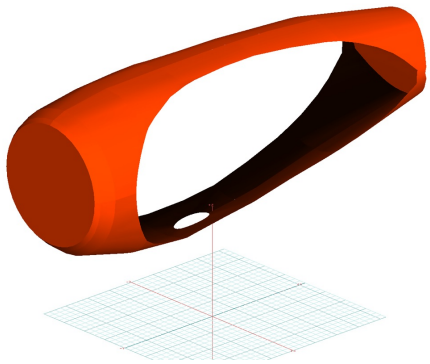

Tri-Fold Ring Engine Covers are designed to install easily yet be completely storable. A spring steel hoop is sewn into the hem of each cover, allowing them to be installed without climbing onto the wing or using a stepladder in many cases. To store the covers the spring steel hoop folds like a band-saw blade into three nesting rings. Each cover folds into a compact circular bundle which is stored in the included duffle bag, yet they unfold quickly for use. The Tri-Fold Ring cover is made of medium weight Solution-Dyed Polyester which is available in a variety of colors to match the paint trim. Each cover set comes complete with installation and folding instructions. The aircraft's registration number can be silkscreened onto the cover for an extra charge.

ALL-YEAR USE MATERIAL - Made with Solution dyed Polyester fabric, the all-year use material is the best option for sun protection and cover longevity. This heavier more durable material is intended for all weather conditions, such as rain and snow or lots of sun.

The **Canadair Regional Jet 200, 700 Bikini Style Engine Covers** are a single-piece design using a soft and smooth stretchy and fabric. The cover stretches tightly over both the intake and exhaust, installing quickly and easily. These covers are designed to be used as hangar dust covers and have a useful life of approximately one year.

Challenger 601 Intake Covers, standard design

Cessna Citation 680 Engine Cover, Bikini Type

Description	Part Number	Price
INTAKE COVERS (set of 2)	**CRJ-100**	**$1080.00**

INTAKE COVERS (boathook detail) (set of 2)	**CRJ-105**	**$1110.00**
INTAKE COVERS, w/ Herman Nelson preheating hose attachment (set of 2)	**CRJ-106**	**$1940.00**
ENGINE COVERS, Hangar Use, Bikini Type (set of 2)	**CRJ-130**	**$905.00**

Section 3: Plugs & Protection

Canadair Regional Jet 200, 700 Heat Resistant Pitot Tube Covers, are made of Naugahyde vinyl, and lined with a non-burning material. They are designed to cover the entire pitot assembly, slipping over the tube and tightening around the base with a Velcro strap detail. A "Remove Before Flight" streamer is attached to the cover. **Heat Resistant Pitot Covers** are an upgrade to our standard design, and help prevent the pitot cover from melting onto the tube if the pitot heat is accidentally turned on while installed. If you want the set tethered together, please let us know.

Canadair Regional Jet 200, 700 Pitot Tube Covers, NOT HEAT RESISTANT TYPE, are made of Naugahyde vinyl, and are designed to cover the entire pitot assembly. Slipping over the tube, the cover tightens around the base with a Velcro strap detail. A "Remove Before Flight" streamer is attached to the cover. **Heat Resistant Pitot Covers** are an upgrade to this design, and help prevent the pitot cover from melting onto the tube if the pitot heat is accidentally turned on while installed. If you want the set tethered together, please let us know.

The **Engine Exhaust Plugs** are custom fit for your Canadair Regional Jet 200, 700 exhaust openings, made with heavy-duty vinyl material, and stuffed with a single block of sculpted urethane foam. Each plug has a zipper that allows the foam to be removed and dried if necessary. Exhaust plugs have 'remove before flight' streamers sewn onto the face of the plugs. Most plugs are imprinted with the aircraft registration number in black for an extra charge. Exhaust plugs may be inserted soon after flight when the engine is still warm. Engine Inlet Plugs are commonly referred to as Cowl Plugs, Intake Plugs, Cowl Blocks, Engine Blocks, and Engine Bungs.

The **Engine Inlet Plugs** are custom fit for your Canadair Regional Jet 200, 700 intakes, made with heavy-duty vinyl material, and stuffed with a single block of sculpted urethane foam. Each plug has a zipper that allows the foam to be removed and dried if necessary. Engine plugs have 'remove before flight' streamers sewn onto the face of the plugs. Most plugs are imprinted with the aircraft registration number in black for an extra charge. Storage bag NOT included. Engine plugs may be inserted after flight when the engine is still warm. Engine Inlet Plugs are commonly referred to as Cowl Plugs, Intake Plugs, Cowl Blocks, Engine Blocks, and Engine Bungs.

Grumman Gulfstream G450 Intake Plugs

PITOT COVERS, heat resistant type, includes standby Pitot (set of 3)	**CRJ-150**	**$505.00**
TAT PROBE COVERS (set of 2)	**CRJ-155**	**$245.00**

Section 5: HeatShields & Sun Reflectors

Cockpit Heatshields are interior sunshades for the aircraft's cockpit. The product is a unique composite of closed-cell foam with a silver mylar finish. The semi-rigid design is stiff enough to stand inside the window framing. The set folds up flat and is easily stored in the included storage sleeve. Some designs may require velcro and suction cups. Our Heatshields for jets are offered white side out because some aircraft manufacturers have issued advisories against reflective window inserts due to potential heat damage. A Heatshield is an excellent short-term remedy for cockpit overheating, but an external fabric cover is more effective for long-term protection.

Challenger 604 Cockpit HeatShields

Description	Part Number	Price
COCKPIT HEATSHIELDS (set of 2)	**CRJ-900**	**$365.00**

Section 6: Miscellaneous Products

Description	Part Number	Price
NOSE GEAR TIRE COVER	**CRJ-400**	**$535.00**
MAIN GEAR TIRE COVERS (specify tire size) (set of 4)	**CRJ-405**	**$630.00**
