manufacturer of the finest custom-made aircraft covers

Tech Sheet: McDonnell Douglas DC-8

(mcdonnell-douglas-DC8.pdf)

McDonnell Douglas DC-8 Intake Covers

Section 2: Engine Covers

Off-Link Engine Covers protect commercial aircraft engines while in storage. They protect the engine from the elements, prevent surface contamination from oil leaks, and help stop "parts robbing". There are three types: Complete, partial and component covers.

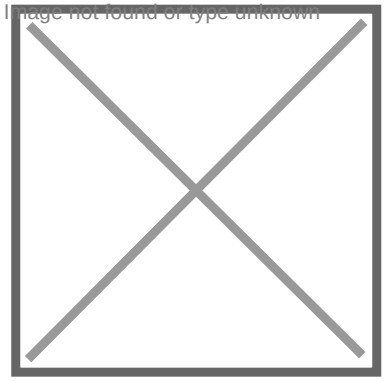

Complete covers enclose the entire engine. There are openings for mount points and engine access. Closures are heavy duty

zippers, secured or tightened with straps and industrial buckles. High visibility reflective strips are sewn around the perimeter to enhance safety, and to prevent collisions from moving vehicles. Directional indicators, company insignia, and a forms pouch are sewn onto each cover. Where needed strap loops are placed at hoist points for easy and fast installation. Locking mechanisms can be installed on the cover to help prevent unauthorized access.

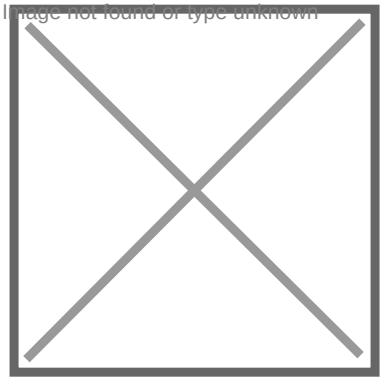

Partial covers are designed as "Rain Caps", which cover the top and sides but do not prevent oil contamination from the engine to the surface below. Their construction details are similar to the complete cover designs, but they can be easier to install.

Component Covers, such as intake or exhaust covers, are designed according to customers' specifications. A wide variety of materials and attachment details are available, as well as custom imprinting.

FABRIC & THREAD: For strength, durability and ease of use we make these covers of the heaviest nylon ballistic cloth. It is sewn in multiple courses with *Tenara* thread, and reinforced with heavy vinyl cloth at high-wear points.

McDonnell Douglas DC-8 Intake Covers

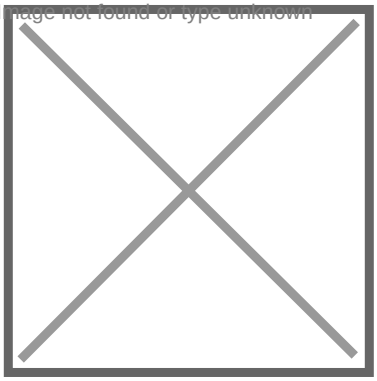

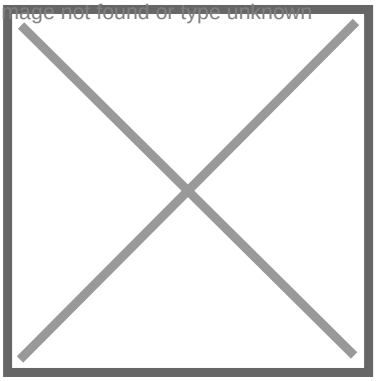

Covers, Plugs, HeatShields and related items for the McDonnell Douglas DC-8

Description	Part Number	Price
INTAKE COVERS (set of 4)	**DC8-100**	**$5455.00**
EXHAUST COVERS (set of 4)	**DC8-110**	**$3700.00**
ENGINE STORAGE COVERS (set of 3)	**DC8-200**	**$1645.00**

Section 3: Plugs & Protection

The **Engine Exhaust Plugs** are custom fit for your McDonnell Douglas DC-8 exhaust openings, made with heavy-duty vinyl material, and stuffed with a single block of sculpted urethane foam. Each plug has a zipper that allows the foam to be removed and dried if necessary. Exhaust plugs have 'remove before flight' streamers sewn onto the face of the plugs. Most plugs are imprinted with the aircraft registration number in black for an extra charge. Exhaust plugs may be inserted soon after flight when the engine is still warm. Engine Inlet Plugs are commonly referred to as Cowl Plugs, Intake Plugs, Cowl Blocks, Engine Blocks, and Engine Bungs.

McDonnell Douglas DC-8 Exhaust Plugs McDonnell Douglas DC-8 Exhaust Plugs, Donut Ring Type For Bypass Vent And Exhaust

Description	Part Number	Price
EXHAUST PLUGS, Bypass Vent and Exhaust, 3 per engine (set of 12)	**DC8-115**	**$8485.00**
