Tech Sheet: DeHavilland Twin Otter DHC6 (UV-18A)

(dehavilland-DH6.pdf)

DeHavilland Twin Otter DHC6 (UV-18A) Cockpit Cover (CUSTOM COLOR)

Section 1: Canopy/Cockpit/Fuselage Covers

The **DeHavilland Twin Otter DHC6 (UV-18A) Cockpit Cover** helps reduce damage to the upholstery and avionics caused by excessive heat and can eliminate problems caused by leaking door and window seals. They keep the windshield and window surfaces clean and help prevent vandalism and theft.

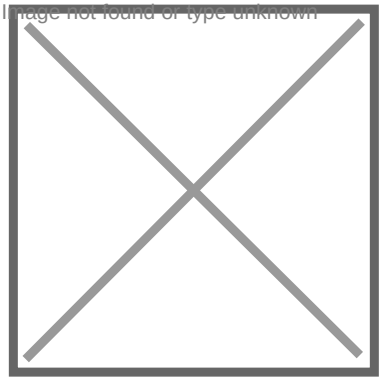

Cockpit covers are designed to cover the windshield and side windows of the cockpit. Attachment buckles are made of nonmetal *Delrin*, designed for rugged outdoor use. The windshield cover comes with a duffle bag. The N-number can be imprinted onto the cover for an extra charge. The windshield cover is trimmed in the colors of the aircraft.

This cover type is made from Silver Acrylic Sunbrella canvas and is 100% lined with a soft and smooth microfiber. Bruce's Custom Covers developed this material combination especially for aircraft protection. The outer material is medium weight and treated for water resistance, UV resistance and anti-static buildup. The inner lining is a very soft and smooth microfiber to prevent scratching. The material is very reflective, and tests show that the cabin interior temperature can be reduced to near-ambient temperature on the hottest of days. It is water, ice and snow repellent, yet breathable to allow moisture to escape from between the cover and the aircraft surface.

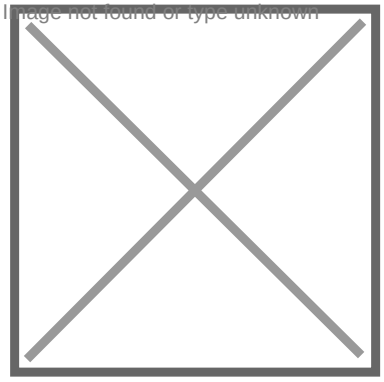

The **DeHavilland Twin Otter DHC6 (UV-18A) Cockpit/Nose Cover** helps reduce damage to the upholstery and avionics caused by excessive heat and can eliminate problems caused by leaking door and window seals. They keep the windshield and window surfaces clean and help prevent vandalism and theft.

De Havilland Dash 8 Cockpit/Nose Cover

Twin Otter Cockpit Cover & Engine Plugs

Description	Part Number	Price
COCKPIT COVER	**DH6-000**	**$580.00**
COCKPIT/NOSE COVER	**DH6-005**	**$1115.00**
EXTENDED COCKPIT/NOSE COVER	**DH6-010**	**$2760.00**

Section 2: Engine/Prop Covers

Engine Covers will cinch around or behind the spinner, cover the entire engine cowl area including the engine air cooling and induction air inlets, and fastens together with Velcro beneath the spinner down the front of the cowling. The Engine Cover is attached with a belly strap aft of the firewall, and can Velcro to the Canopy Cover. Engine Covers are normally made from Solution-Dyed Polyester or Acrylic *Sunbrella*. An Insulated version of the engine cover can be made with a thicker, quilted, and water-repellent material. The Insulated Engine Cover works well in cold climates to help with engine preheating.

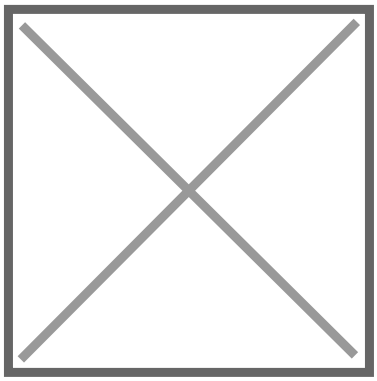

The **DeHavilland Twin Otter DHC6 (UV-18A) Insulated Engine Cover** works well in cold climates to help with engine preheating.

You can add an access flap for an additional fee. It will cinch around or behind the spinner, cover the entire engine cowl area including the engine air inlets, and fastens together with Velcro beneath the spinner down the front of the cowling.

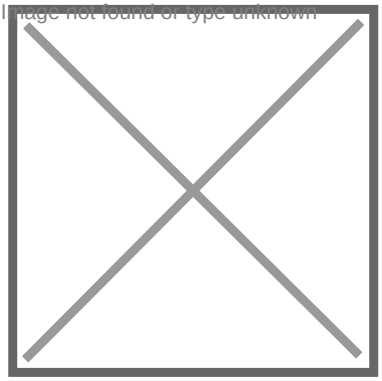

Insulated Covers Material - A special composite material of solution-dyed polyester, 3M Thinsulate insulation, and soft nylon interior fabric. Our insulated covers are designed to complement an engine preheater and help retain heat in the engine compartment after shutdown. If you operate your aircraft in cold-weather, these covers will help prevent engine wear and tear.

The **DeHavilland Twin Otter DHC6 (UV-18A) Propeller Cover** is a one-piece design that form fits to the blades and spinner. The prop cover slips over the blades and spinner and is attached by a plastic all-weather zipper on the bottom of the blades. Propeller covers can be made for multiple numbers of blades, and for wooden, composite or metal props. The Propeller Cover is normally made from Acrylic *Sunbrella* or Solution-Dyed Polyester and is lined 100% with a soft and smooth microfiber. **Insulated Propeller Covers** works well in cold climates to help with engine preheating. These insulated versions are made with a thicker, quilted, water-repellent, and breathable material.

This cover type is made from Silver Acrylic Sunbrella canvas and is 100% lined with a soft and smooth microfiber. Bruce's Custom Covers developed this material combination especially for aircraft protection. De Havilland Twin Otter Engine Inlet Plug and Exhaust Covers

Description	Part Number	Price
ENGINE COVERS (set of 2)	**DH6-110**	**$1250.00**
INSULATED ENGINE COVERS, back to l.e. of wing (set of 2)	**DH6-115**	**$1795.00**
PROP TIE-DOWNS (set of 4)	**DH6-145**	**$310.00**
INSULATED PROPELLOR HUB COVERS, 3 blade (set of 2)	**DH6-147**	**$895.00**
PROPELLOR/SPINNER COVERS, 3 blade (set of 2)	**DH6-148**	**$1005.00**
INSULATED PROPELLOR/SPINNER COVERS, 3 blade (set of 2)	**DH6-149**	**$1395.00**
EXHAUST COVERS (tear drop shape) (set of 4)	**DH6-150**	**$405.00**
INSULATED PROPELLOR HUB COVERS, 4 blade (set of 2)	**DH6-155**	**$995.00**
PROPELLOR/SPINNER COVERS, 4 blade (set of 2)	**DH6-156**	**$1205.00**
INSULATED PROPELLOR/SPINNER COVERS, 4 blade (set of 2)	**DH6-157**	**$1445.00**

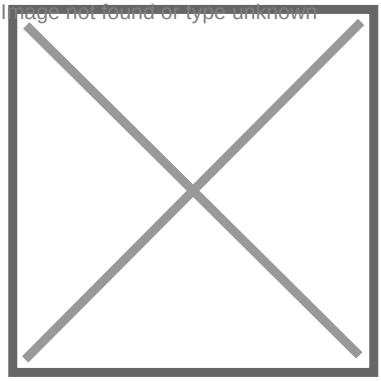

Section 3: Plugs & Protection

DeHavilland Twin Otter DHC6 (UV-18A) Pitot Tube Covers, NOT HEAT RESISTANT TYPE, are made of Naugahyde vinyl, and are designed to cover the entire pitot assembly. Slipping over the tube, the cover tightens around the base with a Velcro strap detail. A "Remove Before Flight" streamer is attached to the cover. **Heat Resistant Pitot Covers** are an upgrade to this design, and help prevent the pitot cover from melting onto the tube if the pitot heat is accidentally turned on while installed. If you want the set tethered together, please let us know.

Engine Inlet Plugs are custom fit for your DeHavilland Twin Otter DHC6 (UV-18A) intakes, made with heavy-duty vinyl material, and stuffed with a single block of sculpted urethane foam. Each plug has a zipper that allows the foam to be removed and dried if necessary. Engine plugs have warning flags that are visible from the cockpit or 'remove before flight' streamers sewn onto the face of the plugs. Most plugs are imprinted with the aircraft registration number in black for an extra charge. Storage bag NOT included. Engine plugs may be inserted after flight when the engine is still warm. **Engine Inlet Plugs are commonly referred to as Cowl Plugs, Intake Plugs, Cowl Blocks, Engine Blocks, and Engine Bungs.**

DeHavilland DH-6 Intake Plugs, Exhaust Covers

DeHavilland Twin Otter DHC6 Rudder Opening Plugs

Description	Part Number	Price
ENGINE INLET PLUGS (set of 2)	**DH6-100**	**$345.00**
RAM AIR INLET PLUG	**DH6-101**	**$80.00**
RUDDER OPENING PLUGS (set of 2)	**DH6-350**	**$190.00**
PITOT COVERS (set of 2)	**DH6-500**	**$105.00**
PITOT COVERS W/ STATIC PORT PLUGS (set of 2)	**DH6-501**	**$205.00**

Section 4: Wing/Tail/Empennage Covers

Horizontal Stabilizer Covers are a perfect solution to protect your paint from sun damage and prevent frost, snow, ice buildup, and corrosion. They are made from Solution-Dyed Polyester or Acrylic *Sunbrella*. They cover the entire upper surface of the stabilizers and overlap around the leading and trailing edges as well as the wing tip. The covers secure under each stabilizer with adjustable straps. In some instances, cut-outs are made in the trailing edge of the wing covers to accommodate for static wicks. **Horizontal Stabilizer Covers** for winter use or long-term all year use are usually available, and are normally made from Solution-Dyed Polyester or Acrylic *Sunbrella*. A Hail Protection version can be made which incorporates dense closed cell foam into the entire upper surface of the wing covers to help prevent hail damage. Although these covers are bulky, they do help protect your wing and control surfaces against small to medium-size hail.

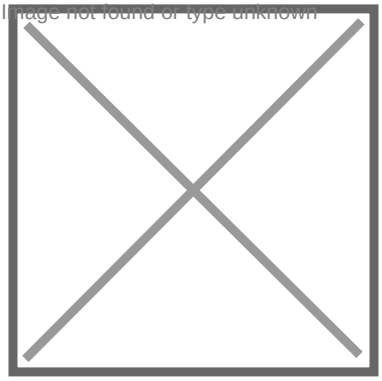

ALL-YEAR USE MATERIAL - Made with Silver Acrylic Sunbrella canvas, the all-year use material is the best option for sun protection and cover longevity. This heavier more durable material is intended for all weather conditions, such as rain and snow or lots of sun.

WINTER USE MATERIAL - Made with Solution-Dyed Polyester fabric, this option is intended for seasonal use to aid in deicing, rain mitigation, or for occasional travel. The material is lighter and more compact, but more susceptible to UV damage and may have a shorter useful life if used continuously outside than the all-year use material.

The **DeHavilland Twin Otter DHC6 (UV-18A) Wing Covers** are a perfect solution to protect your paint from sun damage and prevent winter frost, snow, ice buildup, and corrosion. They are made from Solution-Dyed Polyester or Acrylic*Sunbrella* and form-fit to slip around each wing tip, cover the entire upper surface of the wing and wrap around the leading and trailing edges. The covers secure under the wing with adjustable straps from the trailing edge to the leading edge. The wing covers can also attach to each other with adjustable straps at the leading and trailing edges of the wing under the belly of the plane. In some instances, cut-outs are made in the trailing edge of the wing covers to accommodate static wicks. We have the ability to also accommodate wing tip modifications, such as STOL kits, droop tips, and vortex generators. Wing covers are labeled LEFT and RIGHT for your convenience. Wing Covers are available for winter use or long-term, all-year use. A Hail Protection version can be made which incorporates very dense closed cell foam into the entire upper surface of the wing covers to help prevent hail damage. Although these covers are bulky, they do help protect your wing and control surfaces against small to medium-size hail.

De Havilland Twin Otter Wing Cover wing tip detail

Description	Part Number	Price
WING COVERS, WINTER USE (set of 2)	**DH6-200**	**$1595.00**
WING COVERS, ALL YEAR USE (set of 2)	**DH6-205**	**$2050.00**
HORIZONTAL STABILIZER COVERS, WINTER USE (set of 2)	**DH6-300**	**$695.00**
HORIZONTAL STABILIZER COVERS, ALL YEAR USE (set of 2)	**DH6-305**	**$950.00**
VERTICAL STABILIZER COVER, WINTER USE	**DH6-310**	**$795.00**

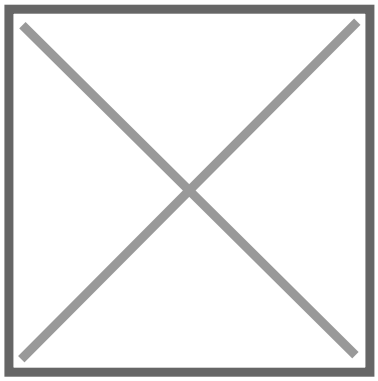

Section 5: HeatShields & Sun Reflectors

Cabin Heatshields are interior sunshades for the aircraft's passenger cabin area. The product is a unique composite of closed-cell foam with a silver mylar finish. The semi-rigid design is stiff enough to stand inside the window framing. The set folds up flat and is easily stored in the included storage sleeve. Some designs may require velcro and suction cups. A Heatshield is an excellent short-term remedy for cockpit overheating, but an external fabric cover is more effective for long-term protection.

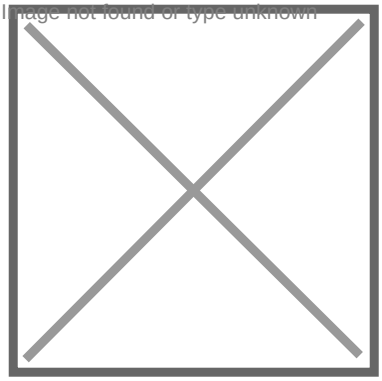

Cockpit Heatshields are interior sunshades for the aircraft's cockpit. The product is a unique composite of closed-cell foam with a silver mylar finish.
